

Emergency Animal Mortality Management - Swine

Funding available to help

Assistance Available

U.S. Department of Agriculture (USDA) Natural Resources Conservation Service (NRCS) is offering financial and technical assistance for swine producers for animal mortality disposal, resulting from impacts of the COVID-19 pandemic. Assistance for the Emergency Animal Mortality Management practice is available in certain States. Learn more at farmers.gov/coronavirus.

How to Apply

Producers facing swine depopulations are encouraged to file the attached Environmental Quality Incentives Program (EQIP) application (Form CCC-1200) with their local NRCS Field Office.

The Emergency Animal Mortality Management practice includes four options that NRCS is offering for the proper disposal of animal carcasses:

Option	Payment Unit	Payment Rate	
		Traditional	*HU
Burial	AU	\$74.28	\$89.14
Carcass disposal other than burial	AU	\$111.53	\$191.20
Incineration	AU	\$219.88	\$263.86
Disposal at landfill or render	Pounds	\$.05	\$.06

Conversion Factor: 1,000 lbs. = Animal Unit (AU)

80 Weaning Pigs
 3.5 Market Hogs

One Animal Unit = 2 Sows

USDA is an equal opportunity provider, employer, and lender. [Kansas](#) • April 2020

The producer is responsible for the proper disposal of animal mortality by following requirements specific to each option. All Federal, State and local laws must be followed and are the responsibility of the producer to secure any necessary permits.

Eligibility

Agricultural producers and owners of non-industrial private forestland and Tribes are eligible to apply for EQIP. Eligible land includes cropland, rangeland, pastureland, non-industrial private forestland, and other farm or ranch lands.

To receive assistance, **both** an application and approved early start waiver, must be filed with the local NRCS Field Office prior to disposal of animal carcasses.

Other program information:

- Producers must have farm records established with the Farm Service Agency (FSA), meet all eligibility requirements, and have an application filed at the local NRCS office.
- Prior to payment, NRCS Form KS-ENG-368 and certification must be complete and submitted to local NRCS Field Office.
- There are payment limitations. Contact your local NRCS Field Office for more details.

*Historically Underserved (HU) producers, including socially disadvantaged, beginning and limited resource farmers, Tribes, and beginning farmers/veterans are eligible for an increased payment rate.

Environmental Quality Incentives Program (EQIP)

Through EQIP, NRCS provides financial and technical assistance to farmers and ranchers to plan and implement conservation practices that improve soil, water, plant, animal, air, and energy usage on agricultural land and non-industrial private forestland. Financial assistance is limited and not all applications will be funded.

While not designed to be an emergency response program, EQIP can play a vital role in assisting producers recovering from disasters.
